FáilteGo

A Tourism app for Galway

Why are we here?

- Tourism is one of Irelands biggest industries
- Making information more easily accessible
- We will not only have major attractions but hidden authentic cultural experiences
- We aim to create a single easy to use app that can help them explore Ireland more meaningfully

What we do

We are a developing a mobile tourism application designed to help tourists discover the deeper cultural aspect of Galway.

How we do it

Instead of just listing attractions our app can really connect people with heritage sites and local history

FáilteGo

Discover the Galway you didn't know was there

Curated cultural trails across Galway

Discover hidden gems beyond tourist hot spots

Learn the stories of the ground you walk on

Designed for curious travellers

NOT List

In Scope:

- Itinerary Creation
- List of Popular Spots
- Upcoming Events
- Weather Integration
- Interactive Map
- User Login

Not In Scope:

- Travel Booking
- AI Features
- E-commerce
- Emergency/Public Service Integration
- Country Expansion

Meet The Neighbours

Tourists

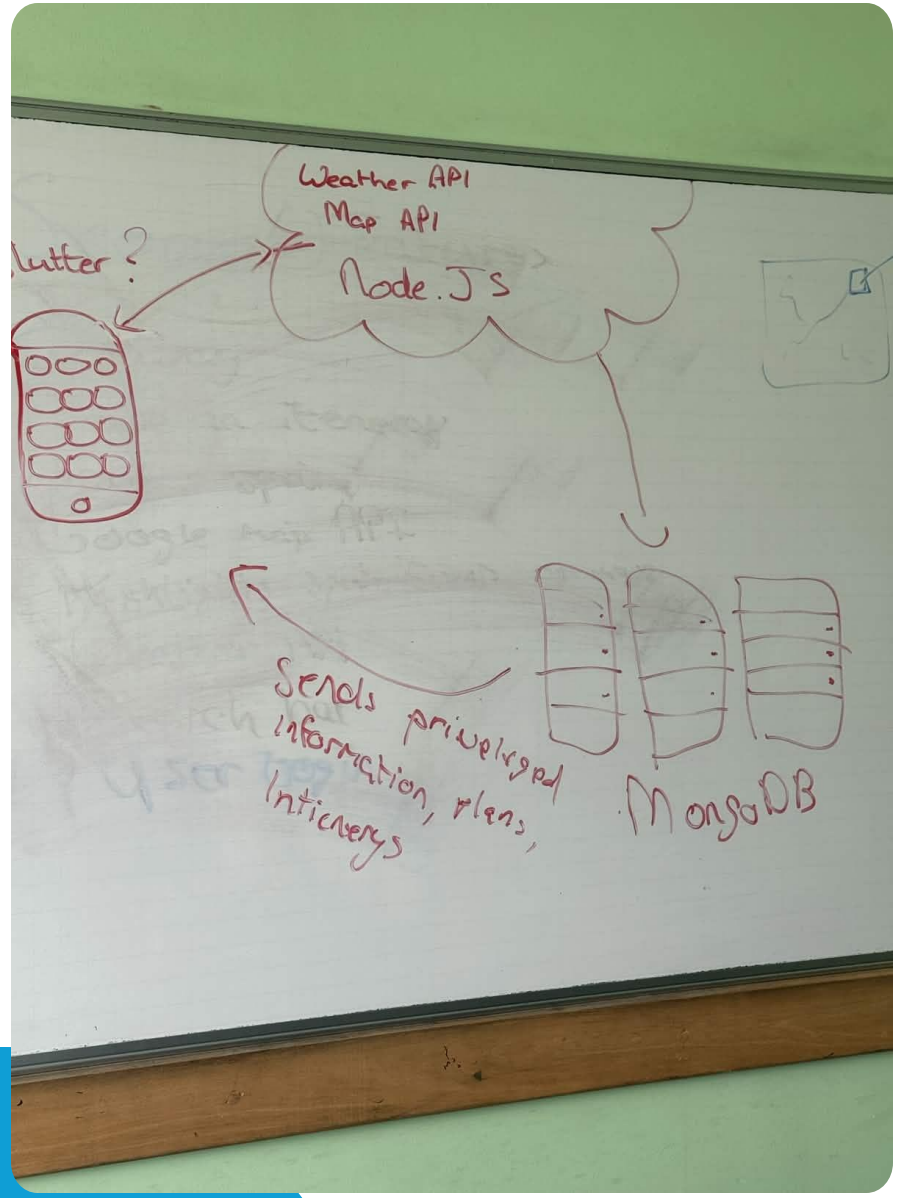
- Main users who rely on the app to decide what to see and do

Domestic Visitors

- People travelling within Ireland for trips

Local Businesses

- Cafés, pubs, shops, and tour providers benefit from increased foot traffic.



Our Solution

A mobile app designed to help tourists discover authentic Galway experiences

- Brings attractions, culture, food, events, and hidden gems into one platform.
- Provides personalised recommendations based on interests and location.
- Has a map that shows all key places with little pop ups.

Risks

- Time crunch
- Deadline
- Scope Creep
- API Malfunctions
- Learning new language with time constraint
- Stakeholders
